

Overpack & Salvage Drums are typically larger containers designed as extra protection to an already contained waste.

Overpacks are poly drums specifically manufactured as an outer container to a potentially leaking drum. The sizes of these containers can range from 20 gallons to 600 gallons! The most common size out of this range is the 95 gallon. They come with an **X** rating, and can contain a variety of hazardous materials including corrosives/acids leaking from a 55 gallon drum. A twist on & off lid provides a secure closure with slots to provide torque.

<b>PART NUMBER</b>	EDD295F
<b>SIZE</b>	95 Gallon
<b>STYLE</b>	Open Head Plain Top
<b>CLOSURE STYLE</b>	Screw-Top
<b>MINIMUM UN RATING</b>	UN1H2/X295/S
<b>RECONDITIONED AVAILABLE</b>	No
<b>UNITS PER PALLET</b>	4
<b>UNIT WEIGHT</b>	50 lbs.
