

QUESTPAK

Instructions for Set-up & Closure

(Picture 1)

Step 1) Fold the top flaps in. Turn the container upside down, and fold the bottom flaps.

Step 2) Tape the bottom flaps with 3" filament pressure sensitive tape. Two strips are required over the center. All strips of tape must extend a minimum of 4" over the edges. Use two additional strips of tape to seal the outer edges, forming an 'H' pattern, and also extend them a minimum of 4" over the edges. (See picture 1)

Step 3) Insert the poly liner, and stretch around the containers interior walls until firmly in place.

Step 4) Fill the container with material.

Step 5) Once the box is full, twist the liner clockwise a minimum 3 times to secure the materials, and seal the bag. Secure with the appropriate zip tie 8" from the top of the liner.

Step 6) Carefully compress the filled liner of material into the container, and close the top flaps.

(Picture 2)

Step 7) Tape the top flaps with 3" filament pressure sensitive tape. Two strips are required over the center. All strips of tape must extend a minimum of 4" over the edges. Use two additional strips of tape to seal the outer edges, forming an 'H' pattern, and also extend them a minimum of 4" over the edges. (See picture 2)

To Include Questar Part Numbers:

- QUESTPAK5
- QUESTPAK10
- QUESTPAK20
- QUESTPAK30
- QUESTPAK55

To Reorder QuestPak Boxes: Please call Questar at (330) 966-2070

Closure Methods for QUESTPAK5:

Sealing Method: 3" Filament Pressure Sensitive Tape (Part Number: CET7250)

Orientation: 'H' pattern at the top and bottom. (2) strips run lengthwise over the center gap, and (2) strips run widthwise sealing the exposed edges. All strips of tape must extend a minimum of 4" over the edges.

Quantity: (8) Strips total: (4) Top, (4) Bottom

Closure Methods for QUESTPAK10:

Sealing Method: 3" Filament Pressure Sensitive Tape (Part Number: CET7250)

Orientation: 'H' pattern at the top and bottom. (2) strips run lengthwise over the center gap, and (2) strips run widthwise sealing the exposed edges. All strips of tape must extend a minimum of 4" over the edges.

Quantity: (8) Strips total: (4) Top, (4) Bottom

Closure Methods for QUESTPAK20:

Sealing Method: 3" Filament Pressure Sensitive Tape (Part Number: CET7250)

Orientation: 'H' pattern at the top and bottom. (2) strips run lengthwise over the center gap, and (2) strips run widthwise sealing the exposed edges. All strips of tape must extend a minimum of 4" over the edges.

Quantity: (8) Strips total: (4) Top, (4) Bottom

Closure Methods for QUESTPAK30:

Sealing Method: 3" Filament Pressure Sensitive Tape (Part Number: CET7250)

Orientation: 'H' pattern at the top and bottom. (2) strips run lengthwise over the center gap, and (2) strips run widthwise sealing the exposed edges. All strips of tape must extend a minimum of 4" over the edges.

Quantity: (8) Strips total: (4) Top, (4) Bottom
